

Written by GCSE examiners, this guide is designed to help students with the GCSE coursework that is marked and thus helps determine their grade. It displays sample material of what a student will actually submit and may be used in a free-standing capacity or as a supplement to any course textbook. The book explains the nature and the importance of the coursework for each subject and the skills which it is designed to test. There is advice on how to choose the subject area and a title for an assignment, on how to research it and finally how to draft and present it.
