

Here is another indispensable cross-reference manual to the music of the 1980s. This era created what some have called the next generation of Classic Rock. While some songs from the early 1980s definitely fit into the Classic rock format, the 1980s really introduced a new format. It brought in the hair bands, glam rock, new wave, and a lot of pop. Even traditional rockers like Neil Young released electronic albums (Trans " 1982). Through it all, some of the biggest stars in music emerged " Madonna, Janet Jackson, Paula Abdul, and Whitney Houston, to name a few.
