Global Warming: The National Oceanic and Atmospheric Administration may have a boring name, but it has a very important job: It measures.

2 days ago Derisively called deniers, climate change skeptics continue to challenge the so-called conventional wisdom, asking Is global warming a hoax.

A great scientist named Roger Revelle had Al Gore in his class at Harvard and the Global Warming campaign was born. Revelle tried to calm. New research out Monday seems at first glance to give climate doubters new ammunition in their war against climate science. In fact, it. That humans are causing global warming is the position of the Academies of Science from More specifically, around 95% of active climate researchers actively publishing that list of is about as big a hoax as the Petition Project was.

The interaction between politics and media can be toxic for science, and climate change is a prominent example. Take the recent "deep freeze". Dr. Vincent Gray discusses and analyzes the science and politics of the Anthropogenic Global Warming (AGW) meme. Dr. Gray is a renowned scientist and.

'Fake news' or 'inconvenient truth'? The global community agreed in the Paris Climate Agreement to recognise climate change as man-made. A new survey shows 21 per cent believe climate change is a hoax perpetrated by scientists, and more than a third think Earth has been visited. In recent years, global warming has been the subject of a great deal of political controversy. As scientific knowledge has grown, this debate is.
